OBJECTIVE

Aspiring Computer Science engineer seeking to enhance technical skills through practical experience. Eager to contribute to real-world projects in web development, Python programming, and data analytics, while continuously learning and growing within a professional environment.

SKILLS

- Python Programming
- Web Development (HTML, CSS, JavaScript)
- Git & GitHub
- Microsoft Excel
- Data Analytics
- AWS Fundamentals

PROJECTS

E-commerce Website using HTML, CSS and JavaScript

MAY-2024

- Designed and developed a user-friendly e-commerce platform to simulate a real-world online shopping experience.
- Successfully implemented key features like product listings, shopping cart, and checkout system. Achieved responsive design and dynamic content updates, enhancing user interaction and usability.

Sales Dashboard using Microsoft Excel (Pivot Tables, Charts, Filters)

APRIL-2025

- Built an interactive dashboard to visualize and track monthly sales data for performance analysis.
- Enabled better decision-making through clear data representation. Improved sales trend visibility and reporting efficiency for non-technical users.
